Professional Summary

Client-facing Solution Delivery Executive with **2+ years** scoping, designing and delivering technical solutions for Fortune 500 enterprises including ExxonMobil. Owns engagements end to end – technical discovery, requirements elicitation, REST API integration, onboarding and UAT sign-off – as the primary technical contact for enterprise stakeholders. Translates complex technical design for engineering and business audiences alike, and turns client feedback into product improvements.

Work Experience

Solution Delivery Executive (Data & BI Analyst) | Zeapl.AI (Client: ExxonMobil) **Jun 2024 – Present**
Enterprise solution delivery and analytics consulting for Fortune 500 clients – Noida, India

- Ran technical discovery with **10+** enterprise stakeholders across operations, marketing and loyalty, eliciting and documenting requirements into **25+** KPI specifications and solution designs accepted through end-to-end UAT at **99%+** accuracy.
- Owned delivery of **20+** enterprise solutions as primary technical point of contact – scoping, configuration, integration and go-live – cutting client reporting cycle time **30%** and freeing **15 hrs/week** of capacity.
- Integrated **REST and WhatsApp Business APIs** into 10 automated client workflows, removing manual handoffs and cutting client operational costs **20%** annually.
- Built validation and reconciliation pipelines across **1M+ row** transactional datasets, resolving accuracy disputes and lifting data accuracy **25%**.
- Fed **3** customer funnel drop-offs, surfaced through funnel and cohort analysis, into the product roadmap; resulting changes lifted engagement **15%** in 90 days.

Business Analyst | 1Lattice **Nov 2023 – May 2024**
Requirements, solution delivery & process optimisation – Noida, NCR

- Translated **20+** loosely defined requests from 4 business units into documented technical specifications and delivered SQL-driven solutions, shipping every engagement on schedule.
- Standardised **15+** metric definitions into self-serve reporting frameworks, cutting inbound ad-hoc requests **35%** and freeing delivery capacity.
- Streamlined internal workflows by automating **5** recurring reporting processes with Python (Pandas) pipelines and scheduled refresh, collapsing a 3-day turnaround to **same-day**.

Technical Skills

Solution Consulting: Technical Discovery, Enterprise Onboarding, Requirements Elicitation & Documentation, Solution Design, UAT, Client Presentations, Stakeholder Management, Project & Timeline Management

Integration & Architecture: REST APIs, WhatsApp Business API, System Integration, Workflow Automation, ETL Pipelines, Data Reconciliation, Data Validation

Data & Analytics: SQL (Joins, CTEs, Window Functions, Subqueries, Stored Procedures), Python (Pandas, NumPy), Power BI (DAX, Power Query, Data Modelling, Star Schema, Row-level Security), Tableau, Excel (Advanced)

AI & Productivity: LLM assistants (ChatGPT) for proposal drafting, documentation and client communication; chatbot journey analytics

Ways of Working: Agile/Scrum, JIRA, Confluence, Git, Power Automate, Cross-functional Delivery, MS Office Suite

Key Projects

Rewards & Loyalty Chatbot Analytics | Zeapl.AI (ExxonMobil) **2024 – Present**

- Built the analytics layer for a WhatsApp chatbot covering transaction journeys, rewards redemption and referral flows; SQL cohort models and funnel dashboards feed weekly executive reporting and loyalty-programme strategy.

E-Commerce Sales Intelligence Dashboard (250K rows) | Portfolio **2026**

- Modelled 250K transactions on a Star Schema (1 fact + 4 dimensions) with 15+ DAX measures covering revenue, churn and payment-method mix; Power Query pipeline exposed 40%+ return rates across all categories, invisible in revenue-only views.

Certifications

Advanced Certificate in Applied Data Science, ML & IoT – IIT Guwahati (E&ICT Academy) **2023**

Education

M.Sc. in Science – Chaudhary Charan Singh University, Meerut, Uttar Pradesh **2021 – 2023**
